

## Study Computer Science in San Jose, CA & earn credits for CSE494/598!

**2009 Computer Science Summer Study  
Program  
July 13 – August 7, 2009  
San Jose, California**

A four week summer program (July 13 to August 7) will be held in San Jose State University, San Jose, CA. Attendance will include taking courses in computer science for ASU CSE credit. This International Summer University 2009 in Computer Science is jointly organized by HEIG-VD, SJSU, CSULB and ASU.

Students will register for CSE 494/598. Normal ASU tuition rates will apply, and these classes may be eligible for the student's financial aid package.

**Financial support will be provided to each ASU student selected:**

- Travel expenses will be reimbursed up to an amount of **\$500**
- Accommodations fees at SJSU university dorm will be fully covered.
- Expenses associated with activities that are part of the summer program are also covered.

**Fun stuff:** During the four weeks, in addition to classes, many fun social and cultural activities will be organized. Company visits and talks given by guest speakers from the industry will be an essential element of the program.

**Application needs to be submitted to the SCI advising center, BYENG #208**
