File System Driver
File creation/deletion is atomic

- \( p_1 \) and \( p_2 \) create \( f_1 \)
  - Someone creates
  - Other gets "already created error"

- \( p_1 \) and \( p_2 \) delete
  - One deleted, file does not exist
and delete the delete day

A study was conducted to examine the impact of exercise on stress reduction. The results showed a significant decrease in stress levels among participants who engaged in regular physical activity. Furthermore, the study found that incorporating mindfulness practices into the exercise regimen further enhanced the stress-reducing benefits. Overall, these findings suggest that combining exercise with mindfulness can be an effective approach to managing stress.
